MySQL	

TECHNICAL PROJECTS

76'ers App   December 2022

- Created an application where we can search any player in the 76'ers active roster at that specific time.

Blackjack   March 2022

- Created a Blackjack application, where the player can play against the computer. If the player has a 21 or under over the computer, the player wins, and vice versa. However, if anyone gets over 21, it is an automatic loss.

WORK EXPERIENCE

Fabletics – Sales Associate
King of Prussia, PA   February 2024 – Present
